- Abuja, FCT

SKILLS

- Flutter Development
- Dart Programming Language
- Widget Customization and Theming
- UI/UX Design
- RESTful APIs and JSON
- Git Version Control
- Debugging and Troubleshooting
- Firebase, Provider, Bloc
- Problem Solving Skills
- Communication Skills

EDUCATION

Computer Engineering
University of Benin
2015-2020

LANGUAGE

English

PROFILE

Skilled Flutter Developer with a strong passion for creating efficient and user-friendly mobile applications. Demonstrated expertise in developing cross-platform apps for iOS and Android platforms. Proficient in leveraging Flutter's rich widget library to deliver exceptional user experiences. Excellent problem-solving and communication skills. Committed to delivering high-quality code within deadlines.

WORK EXPERIENCE

Flutter Developer

Waycan Tech ltd.   2023

- Developed and maintained mobile applications using Flutter framework.
- Collaborated with a team of designers and developers to implement UI/UX designs into functional Flutter apps.
- Integrated RESTful APIs to fetch and display data dynamically in the app.
- Implemented state management techniques like Provider and BLoC pattern for efficient app architecture.

Junior Mobile Developer

Buildclaw   2021-2022

- Conducted code reviews and implemented best practices to ensure code quality and maintainability.
- Participated in Agile development sprints, contributing to the continuous improvement of the development process.
- Resolved bugs and issues reported by QA testers and end-users in a timely manner.
- Implemented custom UI components and animations to enhance the user experience.
- Integrated third-party libraries and APIs for additional functionality, such as Google Maps integration or social media sharing.

PROJECTS

Flutter Trivia App

Flutter Trivia is a beginner-friendly app that helps users familiarize themselves with Flutter concepts. It offers easy-to-answer questions, provides answers for learning, and includes a score and rating system. I did the following:

- Developed the cross-platform mobile app from scratch using Flutter and Dart.
- Implemented a clean and intuitive user interface, following material design guidelines.
- Implemented a quiz and scoring system.

Joyhomes App

Joyhomes is a Flutter-built app that allows users to search and rent houses and Airbnb accommodations. It features a user-friendly interface, detailed property information, and contact functionality. Firebase is used for authentication and database management. I did the following:

- Designed and developed Joyhomes app using Flutter.
- Integrated Firebase for authentication and database functionality.
- Collaborated on defining app requirements and features.
- Ensured app functionality and user experience through testing and debugging.
- Implemented high-quality property images for listing showcase.
